NEVADA MINING NEWS. "

LANDER COUNTY. The stock of the Manhattan Silver Mining Co. of Austin has been placed on the list of stocks called in the San Francisco Stock and Exchange Board. The capital stock of this company amounts to \$500,000, divided into 50,000 shares at \$10 each, at which figures upwards of 1,500 shares have been ordered in that town alone. The amount of the capital stock, as every miner in Austown alone, tin knows, does not represent the total value of the property belonging to the Manhattan Company by more than one-third. The Manhattan property has been under the management of Allen A. Curtis, the present General Agent, since 1866, and from that time to the present has turned out an average of \$100,000 per month in bullion. During these years it has been entirely self-sustaining, not a dollar of assessment ever having been levied, and from the net proceeds a large number of mining titles have been purchased, a mill, numer-ous steam hoisting works, machine shops, blacksmith shops and extensive concentrating works constructed. The mining property embraced 126 distinct locations, containing 129,810 linear feet, which includes all the leading mines in Reese River Mining District. On this ground United issued. This leaves but few of the many locations on ground that has not been patented. So it will be seen that the title is the most perfect one that can be obtained to mining ground.—Austin Reveille.

THE Stock market was uneven yesterday in prices, some advancing and others declining. There seems to be an unsettled feeling in the market as to the result of a general rise in the Comstock list. A bear pressure seems to prevail on the Gold Hill section of the Comstock and a bull movement on the north end. The gradual easing up in the money market which appears is approaching, may give an impetus to all stocks on ful study, and an extensive practice of over the Comstock, and, while the north thirty years. ond is assured, to a certain extent, the south edge may also loom up with improved prices.

DONATIONS.-The soliciting committee of the Reno Library Club desires to fill their rooms with different kinds of literature, and feeling that the citizens would donate books and magazines if called upon, have decided to canvass the town and collect all such together. SCARLET FEVER. - Frank Hammond, who has been down with the scarlet fever for the past ten days, has passed through the worst of it, and is now fast recovering. The disease has been communicated to his bright little sister Emma, who, we hope, will soon be in as good health as her brother.

Suspended .- The Sacramento Her ald has suspended publication. The Herald was gaining the public favor rapidly. It had a circulation of sixty copies in Reno. Trouble between the proprietors is the cause of the suspension.
